

JUNE 7 DAY OF ACTION

Mark the anniversary of the Ford government's election by shining a light on their real record!

Our movement is planning actions in workplaces large and small. These will take the form of "lunch + learn" meetings in workplaces across greater Toronto. Many unions have successfully used this tactic in contract mobilizing or issue campaigns to engage members.

ASK YOUR MPP:

Why are you attacking our education system and our schools?

Why are you taking a billion dollars out of public health, and a billion out of transit?

Why are you cutting other services? Ripping up union agreements?

#OneYearAfter the election of the Conservative government, their record is one of cuts to vital programs, attacks on workers' rights, and constant abuse of power. The "people" they are acting for are the richest 1%.

The Premier and Conservative MPPs won't answer any questions about cuts. They fail to meet constituents, give untruthful replies, and refuse to answer direct questions.

In **15-minute meetings**, we'll outline these cuts and ask members what questions they would want the Conservatives to answer truthfully.

Activists are already involved in many issue-specific campaigns. Getting tens of thousands of union members involved will deepen the public rejection of the Conservative agenda and set the stage for widespread resistance.

Visit labourcouncil.ca/OneYearAfter to find out how to plan a lunch + learn at your workplace.
